Classic Reverb by Kjaerhus Audio

Classic Reverb is a nice and smooth reverb that does a good job on almost any instrument. It can be adjusted to sound like most any acoustic space, ranging from a small shower to a large concert hall. With the "Hi-Damping" control, it is possible to change the sound from bright and sibilant to a more natural / warmer sound.

Features

- Smooth stereo reverb effect
- Ajustable roomsize and damping
- Low cut filter
- Host Synchronization
- Low CPU usage
- Supports sampling rates up to 96kHz
- Full VST automation

Tips

1. Due to the smooth reverb tail, this reverb is very well suited for drums.

2. Use the "Lo-Cut" filter to remove rumble from drums and bass guitar.

License Agreement

This plugin is a part of our Classic Series, a series of free VST plugins. Check our site http://www.kjaerhusaudio.com frequently to check for new free VST plugins and tips on how to use them. If you know anyone who is interested in a copy of this plugin, just ask him or her to go to our site and download it. All plugins in the Classic Series is subject to our Classic Series License Agreement that can be found here: http://www.kjaerhusaudio.com/documents/classic_series_license_agreement.pdf

Installation

Copy the "Classic Reverb.dll" file to your VST plugins folder.

Known issues

This plugin is tested very thoroughly and to our knowledge there are no issues. If you run into any problems, with this plugin, please let us know. You can send an email to info@kjaerhusaudio.com.

Version history

Version 1.06 (February 22, 2005):

New:

- Hyperlink from logo, quickly allowing a check for updates and new products.

Fixes:

- Solved issue where the GUI was invisible and / or wasn't repainted properly in some hosts and wrappers.

- Solved issue with wrongly reported I/O sampling rate.

- Solved issue where plug-in would report that no GUI was available when requested by the host. This caused one host to not open the GUI.

- Improved VU-meter updates.

Version 1.05 (October 29, 2004):

New:

- Redesigned Graphic User Interface.

Fixes:

- Problem with user interface not showing correctly in some Hosts or being partly erased after another window has been dragged over it is fixed.

- GUI size is now reported correctly to Host.

Version 1.04 (April 15, 2004):

New:

- Knobs are now operated with linear mouse movement instead of circular.
- Optimised code with lower peak CPU usage.

Version 1.03 (January 12, 2004):

Fixes:

- A few Host related capability issues solved.

Version 1.02 (November 19, 2003):

Fixes:

- Improved GUI update using fewer resources.
- Fixing problem when used in AudioMulch.

Version 1.01(October 13, 2003):

New:

- New Logo.

- About box will open when the Logo is clicked.

Fixes:

- Dual Monitor problem fixed.

Version 1.00 (September 16, 2003):

- First release.
